# MOKI

## Transform Your Retail Business with Moki's MDM Solutions

**Moki MDM Solutions help retailers manage and deploy a variety of tools to engage customers and increase sales. Operate more efficiently while improving the customer experience with Moki.**

### Dedicated Use Devices for Retail

Dedicated-use mobile devices are limited to a single purpose and are meant to perform business-critical tasks. These devices include tablets, mobile phones, point-of-sale (POS) devices, terminals and devices for digital advertising.

For retailers, Moki provides complete end-to-end solutions for managing these dedicated-use devices.

### Moki Simplifies Dedicated-Use Device Management

With Moki's MDM software, retailers enjoy centralized management of mobile devices and create a cohesive experience for users across all devices. Businesses can remotely deploy tools and updates with ease, and quickly make needed changes. Moki is a total game changer for retailers.

### Administration

Complete with app management, custom configurations, and group/hierarchy organization, retail business owners use Moki's MDM solution to successfully manage an army of devices with ease.

### Alerts

Moki's Alerts provide timely notifications on device health, standard alerts, and configurable alerts. The SDK allows retailers to configure customized alerts at the application level, ensuring you're always kept in the loop.

### Security

Moki's MDM software is a secure and reliable solution. With features such as kiosk mode and password protection, retailers can be confident that only the needed application is shown to users, and that sensitive data is protected.

### Deployment

Moki's mobile device deployment involves little to no user intervention. With the ability to create commands and manage devices from a single point, Moki's MDM offers a friendly user interface. Experience true scalability that can be tailored to fit any size business.

### The Best Way to Control Your Retail Store's Mobile Device Fleet

Moki MDM Solutions offer an entire host of benefits.

- Customizable & scalable technology to meet your needs.
- Easy set-up and enrollment.
- Increased foot traffic and higher customer engagement.
- Secured devices with our lock-down feature.
- Greater flexibility with buying options in store.
- Improved customer experience.
